

ROBELYNNE SHEANNE D. CLARETE

Administrative, Operations & Content Support Specialist

Philippines | +63 915 624 3162 | ev.robelynnedelapaz@gmail.com | LinkedIn | Portfolio: rhoby-rhobs.github.io

Immediately available for full-time remote work

PROFESSIONAL SUMMARY

Results-driven **Operations & Content Support Specialist** with **10+ years** of remote experience spanning administrative coordination, workflow management, and publishing/content operations. Skilled in **CMS management**, **technical SEO**, documentation, database management, QA, and cross-functional collaboration in fast-paced remote environments. Proven track record leading teams, improving processes, and delivering measurable results at scale. Currently expanding into **AI-assisted workflows** and **AI-search optimization** through freelance client work.

CORE SKILLS

- Administrative Support & Operations Coordination
- Content & Publishing Operations
- Workflow & Task Management
- Team Leadership, Training & Stakeholder Communication
- Calendar & Schedule Coordination
- Documentation & Database Management
- CMS Management (WordPress)
- SEO & Technical SEO (Schema Markup, llms.txt)
- Process Improvement & Operational Efficiency
- Reporting & Quality Assurance
- Cross-functional Collaboration
- Data Accuracy & Compliance Monitoring
- Problem-Solving & Multitasking
- Remote/Asynchronous Collaboration

TOOLS & PLATFORMS

WordPress | Elementor | Rank Math | WPCode | Niche Builder | Jira | Confluence | Google Analytics | Google Search Console | SEMRush | Ahrefs | Qualtrics | Datawrapper | Figma | Canva | Adobe Photoshop | Google Workspace | Microsoft 365 | Slack | Intercom | Trello | Xero | ChatGPT | Claude | Google Gemini | Microsoft Copilot

PROFESSIONAL EXPERIENCE

Finder | Team Lead — Publishing & Operations Support | July 2023 – April 2026

- Led daily publishing and operational workflows for a support team, including **workload prioritization**, task delegation, coaching, and performance monitoring
- Managed end-to-end content operations across insurance pages, ensuring updates were accurate, timely, **SEO-aligned**, and compliant with internal standards
- Partnered with Product, Engineering, and Publishing teams on **cross-functional projects**, including a company-wide rebrand and large-scale database-driven page migration
- Built and improved **SOPs and QA processes** to increase consistency, reduce errors, and support faster delivery

Achievements

- Improved team productivity by **95%** through coaching, workflow improvements, and clearer task ownership
- Increased organic traffic by **25%**, improved CTR by **18%**, and lifted key page rankings by **5–8 positions** through SEO-led optimization
- Reduced manual drafting/processing time by **50%+** using **AI-assisted workflows**; supported the migration of **100+ pages**

Finder | Associate — Publishing & Operations Support | June 2015 – July 2023

- Managed daily CMS and database updates across **300+ live insurance product pages**, including pricing, provider details, fees, rates, and market-specific requirements
- Conducted regular market research and competitor checks to support accurate, relevant, and competitive content

- Performed **quality assurance checks**, content audits, broken-link reviews, and compliance checks to maintain accuracy across live pages
- Supported Publishers and Content Producers with high-volume requests, urgent content updates, and ongoing page maintenance
- Handled detailed WordPress formatting and troubleshooting — recognized as the “Formatting Queen” for advanced layout fixes and troubleshooting skills

Achievements

- Reduced formatting and publishing errors by **40%** through consistent QA reviews and audits
- Maintained **98–99% content accuracy** across 300+ live product listings/pages while consistently meeting KPI targets

Freelance WordPress & Technical SEO Consultant | Part-Time / Project-Based, April 2026 – Present

Client: Australian real estate buyers agency website

- Diagnosed and resolved a **sitewide FAQ schema leak** caused by misconfigured WPCode snippets, fixing conditional logic across numerous location and service pages
- Implemented **llms.txt via Rank Math** to improve site visibility to AI-powered search tools
- Building and maintaining a live content audit tracker (**100+ posts**) assessing SEO performance and mapping 301 redirects / removals, assisted by **Claude** for framework structuring and decision-logic drafting
- Identified a Rank Math plugin bug and escalated it with clear technical documentation for client decision-making on external support access
- Operate independently within WordPress admin, Elementor, and Rank Math without direct hosting/cPanel access, exercising judgment on escalation boundaries

EDUCATION

Bachelor in Industrial Technology, Major in Computer Technology | Bulacan State University | 2010
